UNITED STATES MAGISTRATE JUDGE

ORDER

17-CV-3935 (GBD)(KNF)

The plaintiff pro se requested that the Court direct the defendants “to provide any copies of my medical records they have in their possession” because she “signed many HIPAA release forms” and believes that the defendants “have most of the records because they have asked questions in the depositions based on those records.” Docket Entry No. 79. The defendants contend that, “[a]s directed by the releases, both parties were to receive copies of [the plaintiff’s medical] records directly” from health providers and, “[a]s a courtesy,” the defendants provided the plaintiff with a list of the medical records they believe are in their possession and “a copy of the records on that list that Plaintiff stated were not in her possession.” Docket Entry No. 80.

The plaintiff failed to: (a) identify any medical records she contends the defendants used during her deposition that she does not have; (b) explain the basis for believing that she did not receive all medical records from her health providers pursuant to the releases she signed; and (c) explain the basis for believing that the defendants have documents that they did not disclose and that she did not receive from her health providers. Thus, the plaintiff’s request, Docket Entry No. 79, is denied.
